

## Maharishi Purusha Capital of the Western World

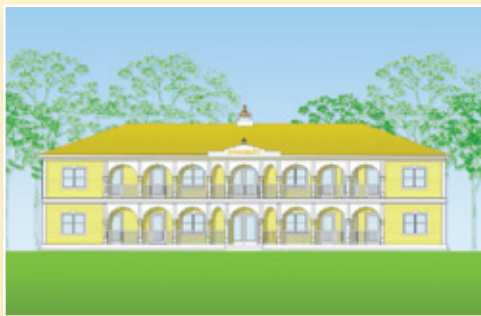

[www.purushacapital.org](http://www.purushacapital.org)

### THE ROAD IS DONE—BUILDINGS ARE STARTING *Progress and Achievement Report—December 2009*

**S**oon America will fulfill Maharishi's vision of an ideal home for the *Maharishi Purusha Program*<sup>SM</sup>—a secluded haven of silence, enlightenment, and bliss. The *Maharishi Purusha Capital of the Western World*<sup>SM</sup> is now rising in the Blue Ridge Mountains of West Virginia, facing east to Washington, D.C., less than 100 miles away (photo above shows eastern view).

ON OCTOBER 17TH, 2009, Purusha men worldwide specially honored the many dear sponsors who have supported our program over the years. At the Purusha Capital<sup>SM</sup>, the new main road was inaugurated as *Chris Wege Way* in honor of Dr. Chris Wege—one of the most generous and steadfast North American sponsors of the *Purusha*<sup>SM</sup> program since its inception 28 years ago. Commented Dr. Wege: *"I am deeply honored to represent all the Purusha sponsors, who together have sustained this group of great men who were so dear to Maharishi. We are fortunate to play this role, and we will do everything we can to strengthen the Purusha program for all time to come."*

THE PROJECT TEAM is now ordering four 8-suite houses. These "green" residences will be silent and comfortable, with many "passive house" features to keep energy use and expenses to a minimum. They will be delivered to our site by truck eight weeks after being ordered, with another three weeks required on site to make a house operational.

**W**e currently have enough funds to build four houses (32 suites). Additional contributions will be used to build more residences and a kitchen/dining hall so that we may establish the entire North American *Purusha* group in their new home as soon as possible.

**Please visit [www.purushacapital.org](http://www.purushacapital.org) to donate online and to see recently added photos, videos, and news—or to sign up for email updates.**

Maharishi often said about this project  
“We are creating Heaven on Earth,” and he urged us to do it quickly.  
We have all taken this to heart in realizing Maharishi’s vision.
